Tech:HTML, CSS, Javascript, OpenMapWeather API Integration

Portfolio Website

July2024-2024

I highlight my expertise in front-end web development.Each project demonstrates my ability to create responsive and visually appealing user interfaces.

I provide GitHub links for all projects,allowing for a deeper exploration of my code and development process.

Tech:HTML, CSS, Javascript

Cardiac Hospital website

July2024-2024

The website features included comprehensive sections on cardiac health services, treatment options, and patient resources. Emphasizing user experience, I ensured seamless accessibility across various devices
